# ABOUT DTL – EXPERIENCE

- **International Freight Forwarding and Logistics**

- Provision of Rail / Road / Air / Ocean / Multimodal freight of import, export and transit commercial cargoes.

- **Projects in all directions:**

Europe-Central Asia / China-Central Asia / USA-Central Asia / India, Pakistan-Central Asia  
CIS Countries – Turkmenistan.

## ROAD TRANSPORTATION

We offer transportation services for various types of cargo using truck trailers (tilt covered / refrigerated) and containers. For the best planning of transportation, we cooperate with reliable and proven partners in the country and abroad.

### KEY ADVANTAGES OF CARGO TRANSPORTATION BY ROAD:

**SHORTEST DELIVERY TIME FRAMES**

**MAXIMUM VARIABILITY OF ROUTES**

**EFFICIENCY, ESPECIALLY IF DELIVERY  
"TO THE DOOR" REQUIRED BY THE-LIEN.**

## RAILROAD TRANSPORTATION

Rail freight transportation is a traditional delivery method focused on solving commercial problems.

### KEY ADVANTAGES:

**EFFICIENCY**

Transportation costs are lower than road, air and sea transportation.

**RELIABILITY**

The cargo is protected from external influences and covered.

**FLEXIBILITY**

Suitable for any category of products, even for hazardous goods using of a special wagons and tank-cars.

**FIXED SCHEDULE**

The movement is strictly according to schedule, cargo will be delivered on time even in bad weather conditions.

## AIR TRANSPORTATION

Our company offers you the best conditions and reasonable price for air cargo transportation. The scope of our services includes additional options, necessary for the successful implementation of air cargo transportation:

### KEY ADVANTAGES:

CARGO INSURANCE

PICKUP AND STORAGE OF CARGO IN THE WAREHOUSE

DELIVERY OF CARGO TO THE AIRPORT, CUSTOMS CLEARANCE AND LOADING ON THE AIR CRAFT

TRACKING OF CARGO MOVEMENT, MONITORING OF COMPLIANCE WITH DELIVERY TIMES

## SEA TRANSPORTATION

Sea transportation of goods is one of the least troublesome ways of transportation, especially if our team of specialists deals with the matter. Any type of cargo can be delivered by international sea transportation.

### KEY ADVANTAGES:

MINIMIZING THE RISK OF CARGO THEFT.

THE ABILITY TO ENSURE CORRECT STORAGE OF CARGO DURING TRANSPORTATION

COMPLETE ABSENCE OF LIMITATION OF CARGO'S WEIGHT AND SIZE

THE MINIMUM COST OF THE SERVICE FOR TRANSPORTATION

ACCURACY OF DELIVERIES - SHIPPING LINES OPERATE ON TIGHT SCHEDULES

# YOU TRUST US AND WE TRUST OUR PARTNERS

In its comparatively short history, DTL and its workers established trusting relations with our agents overseas and in Turkmenistan:

- It never takes more than a day for us to provide clients with quotes for general cargo, since we work only with efficient agents, who proved their worth over years of cooperation.
- Transport is provided to Client`s warehouses at the agreed upon time and drivers are always professionals in what they do.
- Location of cargo is passed from agents to our main office daily (in special cases twice a day). This is our company`s policy and our partners respect it.
- KPI reports are prepared for each agent on monthly basis. This allows us to sort out even the possibility of incompetence on agents` part.

Company`s impeccable reputation also made sure that the authorities trust DTL. We in turn value this and have never let them down.

# THANK YOU
